Profile

I am an experienced Full Stack Developer with a proven track record of working extensively within the IT sector, particularly in the insurance and healthcare fields. Proficient in crafting solutions for Android, web (both frontend and backend), or a fusion of both. I excel in problem-solving, fostering collaboration, and effective communication.

Employment History

Cloud Native Java Engineer, TECH 11 GmbH

Aug 2022 — Present   ⚲ Würzburg, Germany

Responsibilities

- Contributed significantly to the development and maintenance of robust backend modules
- Engaged in the development of cloud-native applications utilizing technologies like Jakarta EE, Camunda, Docker, and more.
- Collaborated with cross-functional teams to deliver high-quality software
